CRIMINAL PLANS EXPOSED IN AGITATOR DOCUMENTS

"Martyrs" Defended; Sycophants Suppressed

Plans Of Organization Provided For
Defense of Thugs and To Force
Submission To Their Mandates
By "Rejecting Them Socially"—
Translation From Original Docu-
ments—How To Divide Spoils

When the authorities made a search of the effects of the Agitation leaders the other day they found a document written in the hand of Negoro that tells the whole story of the scheme that had been outlined for placing the whole Japanese population of the Territory under the most arbitrary sway of two or three agitators.

It is the greatest scheme of criminal organization to hold up an industry that has ever been brought to light in these islands and it makes more impressive the need for relating to the utmost the plans that have been set on foot to fool a part of the Japanese population and intimidate the remainder.

The translation of the document found in Negoro's effects follows:

AMBASSADOR TAKAHIRA, TO WHOM THE AGITATORS HAVE SENT AN APPEAL.

Diplomat Asked To Intercede

The Nippon Jiji, through its editor, Y. Soga, and the officers of the Japanese High Wage Association, yesterday called to Baron Takahira, the Japanese Ambassador in Washington, to explain the action of the Territorial authorities in entering the rooms of Negoro and Makino, and taking away certain things which belonged to them.

Makino, according to Tasaka of the Nippon, also told the Ambassador that his safe had been dynamited and its contents removed.

Aside from Ambassador Takahira, the Japanese influential political parties, the Japanese newspapers in Japan, and the Japanese Association in San Francisco, have been furnished with the same news. The local Japanese strike leaders are greatly wrought up over the action of the Territorial authorities.

Tasaka stated this morning that among the members who are directly interested and affiliated with some of the Japanese political parties to which communications have been sent are

Prince Ito and Count Okuma. Replies from these parties are expected at any moment.

Tasaka claims that the planters cannot keep up the fight, the way they have been doing in the past. "If the Territorial authorities cannot interfere and stop its officers from unlawfully breaking into another man's house or room, and taking away his belongings, then we shall certainly expect protection at the hands of our government," said Tasaka.

"I never saw anything like this. The High Sheriff, as far as we know, was not armed with search warrants, which authorized him to search the rooms of Negoro and Makino. After he had done this Makino having refused to open the safe, he went to work and dynamited it, removing therefrom certain papers which belonged to Makino."

"This action of the High Sheriff is certainly a discredit to the name of Hawaii. The world will know what is being done here in Hawaii. I believe that the Japanese Government will not

SAYS STRIKERS ARE TIRED OF MAKINO

One of the Japanese strike leaders who has denounced Makino, but does not wish his name used at this time, confided to High Sheriff Henry today the information that the strikers were only waiting for a speedy conviction of Makino, Soga and the other leaders, when they would take matters in their own hands, reorganize and persuade all of the strikers to return to work.

The Hawaiian delegates to the World's Conference of Christian Endeavorers, to be held in St. Paul, Minn., left this morning on the steamer Hilonian. They are Judge A. S. Maranda of Wailua, Judge William Werner of Hanalei, Kauai; Peter N. Kahoenuhuna of Maui, Rev. Moses K. Nakunina of this city and others.

HEARING SET

In the Territory's case against Y. Soga, K. Kawamura, N. Negoro and F. K. Makino, who were charged with conspiracy, the preliminary proceedings have been set for Saturday morning and also the case of Y. Pasaka, K. Kawamura and Negoro, who were charged with disturbance. The hearing will take place before Judge De Bolt in the Circuit Court.

Makino In Role Of Martyr

Makino and a number of his associates were among the early visitors at the Judiciary Building. Smiling and confident, the strike leader is still hopeful of success, although the odds now seem greatly against him.

"We shall never give up," he said, "even if they put me in jail for life or hang me, the strike will go on. All we want is an interview with the plantation owners and higher wages. It does not matter what happens to me, the strike will be carried on just the same."

In regard to his arrest, Makino is very bitter. "They are a nice lot of strike breakers," he said. "Kinney, Prosser and the others helping the Attorney General, but never mind, it don't amount to anything."

Jotaro Mikawa, the striker who on June 6 tried to take a prisoner away from Police Officer Willis, and incited riot among the others, was brought before Judge Whitney this morning and arraigned for the first time on a charge of disturbance. Mianchi, Kawakani, Takayama, Mitumagi, Morito, Akelyama, Kawamura, Hamada and Shigata, charged with disturbance, were arraigned before Judge Whitney, and Friday morning at 9 o'clock set for them to plead.

As far as known the Federal Grand Jury has not taken up any of the strike cases directly connected with Makino, but it is anticipated that action will be taken to bring evidence before that body for consideration in relation to the violation of the labor laws as ruled upon by President Taft when Judge.

In regard to the statements made by Makino regarding the arrival of warships at Honolulu, High Sheriff Henry said: "It is absolutely absurd to think a man will make such statements, and it only shows what a low nature he has to do so. No one with any sense will believe it, anyway. To think that the Japanese government will interfere with this strike is ridiculous."

Voshida, Tayama, Kewata and Wada, charged with assaulting and forcibly holding Tachibana Gichi at Ewa on May 24, were brought before Judge Robinson this morning for arraignment. Attorney General Hemmaway, attorneys Kinney and Prosser, deputies representing his office, were present, ready for trial, but Attorney Douthitt, counsel for the defendants, appeared and said that owing to another case set before Judge De Bolt, he would have to ask for a continuance.

"It appears," said Mr. Kinney, "that we cannot get a hearing in any of these cases."

Judge Robinson finally consented to let the cases go over until June 25 at 10 o'clock.

BRUTAL MURDER OF COLORED SAILOR

Dead Man Is Believed
To Be Brother Of
Joe Gans

TWO HAWAIIANS ARE HELD
BY POLICE ON SUSPICION

Skull Fractured in Three Places—
Piece of Bloody Scantling Is
Found Lying Near the
Corpse.

Henry Wetherill's corpse lies in the morgue and Jim McCandless and Tom Cummings are under arrest at the Police Station on suspicion of having murdered the dead man.

About 5 o'clock this morning a Hawaiian who was going to the railroad depot noticed a man lying in the lumber yard near Lee Chu & Co.'s place of business. The native being anxious to catch his train down to one of the plantations where he was employed as a strike breaker, simply informed the Chinese of the fact that a man was lying alongside the lumber pile.

Lee Chu, on looking at the man, saw that he was dead and that the deceased's head had been battered in with some blunt instrument. The police were at once informed of the tragedy and Officer Parish was sent down to investigate.

Parish reports finding the body of a negro lying on a pile of cut lumber and beside the corpse a four-foot piece of 2x3 pine. The stick had evidently been used as a club as there were blood stains on it and some human hair was found adhering to it.

While Parish was making his investigation a Mr. Whaley came along and remarked that he had seen the drunken men in the vicinity of the lumber pile about 11 o'clock last night. A man named Ranger also appeared on the scene and identified the corpse as that of H. Wetherill, one of the crew of the Pleiades, which is now in port. The last seen of Wetherill on board the ship was at 6 o'clock Monday night.

According to Parish's report T. Cummings and J. McCandless then put in an appearance and they too identified the body as that of H. Wetherill, a shipmate of theirs. They stated that the deceased had been in their company up till 11 o'clock on the previous night, but that they had left him at that hour in an ice cream parlor on King street.

Chief of Detectives Leal states that he saw the deceased at about 2 o'clock this morning and that he was then in company with the two suspected men. Some footprints at the scene of the tragedy exactly fit the shoes of the men who are held for investigation and there are several suspicious circumstances in connection with them which have to be explained.

The post mortem on the body of Wetherill revealed the fact that the dead man's skull had been fractured in three places and evidently by a blunt weapon.

An inquest will be held this afternoon and it is expected that some fresh light will be let in on the murder then. Wetherill is said to be a half brother of Joe Gans, the famous colored fighter. He was about twenty-five years of age and was a man of splendid physique. Chief Leal is working on the case and feels confident that he will prove conclusively who killed Henry Wetherill.
